## Other Injuries

A guide by PCB Solicitors

---

We cannot list every cause of an injury for which you might be entitled compensation. Life is too complex for that.

As a basic rule, if you have been hurt or traumatised because of someone else's actions or failure to prevent an accident you may be able to make a claim.

Some examples of causes of injury might include:

- Defective products that have caused you harm
- A public event or activity that was not properly organised or supervised
- An act of terrorism or an explosion
- Environmental pollution
- Falling objects

These are just a few examples- there are many more. If you believe someone else is to blame for your injury, talk to our expert team. We will assess your case and let you know whether we think you have a realistic claim. If necessary, we can then proceed on your behalf, keeping you informed at all times of progress in your matter.

PCB can act for you on a no win, no fee basis, removing the risk to you of taking your claim forward.

If you have been hurt in the last three years, why not call PCB Solicitors today?
