# Road Traffic Accidents

A guide by PCB Solicitors

---

Road accidents are an all-too-common occurrence, but if you are injured and someone else is to blame, you are entitled to compensation. This is true whether you were a driver, passenger, pedestrian, motorcyclist or a cyclist.

PCB Solicitors – Road Traffic Accident Claims Solicitors

Sometimes the person who causes a road accident could be uninsured, driving or riding a stolen vehicle, or may leave the scene of a collision without stopping. Even in these circumstances, you may be able to make a claim so you should talk to PCB Solicitors without delay.

What you could recover:

- Compensation for any injuries you have received
- Costs for medical treatment or long-term care
- Expenses for hiring a replacement vehicle
- Costs of repairs to your vehicle, or compensation for its total loss
- Any lost earnings and other expenses as a result of the accident

Many people take out legal cover as part of their insurance policy. However, insurers often seek to tie you into using a solicitor nominated by them who has paid to be on their panel. Sometimes the insurer can be acting for both parties. You have the right to choose your own solicitor. To ensure your own truly independent legal representation, talk to PCB Solicitors. We're on your side and no-one else's.

Remember, PCB provides a no win, no fee service.
